

Shepherd Tri-Twp Fire Department
DEPARTMENT VEHICLE USE
06/19/2006

Procedure

The following rules pertain to the use of department vehicles for the purposes other than emergency runs or department activities authorized by the Fire Chief or Asst. Fire Chief.

1. No department vehicle will be used or taken out of service without verbal consent of the Fire Chief, Asst. Fire Chief or station Officer.
2. STTFD vehicles will not be allowed to be used for transportation for training. Firefighters who have approval for training opportunities outside the boundaries of Isabella County may ask the Fire Chief for mileage reimbursement prior to taking any class or signing up for a class. Only approved classes and requests will qualify for reimbursement.
3. STTFD vehicles may be used for transportation to mutual aid requests and requests for team responses [cause and origin, haz-mat, etc.] but must have verbal consent prior to use from the Chief, Asst. Chief or station Officer before the unit is taken out of service.

Purpose

To assure department vehicles are always ready and available for emergency use when possible.
