

Shepherd Tri-Township Fire Department FAMILIES OF FIREFIGHTERS

The intent of this Policy is to insure the SAFETY of the family of the firefighter during Fire Department activities. The family's SAFETY must be ensured before any response to an emergency run.

1. At no time shall children be abandoned alone due to a firefighter's response to an incident.
2. At no time shall a firefighter respond to an incident and abandon children in a vehicle.
3. At no time shall a firefighter drive his or her private vehicle in such a manner as to endanger their families while enroute to an incident.
4. It is the position of S.T.T.F.D. that the family as well as the firefighter's safety is our number one priority. Every effort humanly possible should be taken during all department activities to insure their safety and well-being.
